WHAT CAN YOU DO?

IN SB0080

SB0080 redefines child abuse or neglect to NOT include raising or referring to a child by their biological gender. This leaves children facing transphobia at home with no support or recourse, severely limiting the support these children can access as they are technically not being abused per this bill.

IN HB1041

This bill specifically states that a child determined to be biologically male either via genetics or reproductive biology is prohibited from participating on an athletic team or sport designated as being female. It also requires out-of-state teams to out trans members if they wish to play against teams from Indiana designated as female. To add, this bill also includes that institutions not subject to liability for actions taken in compliance with this bill.

On March 11, 2026, *The Lemkin Institute for Genocide Prevention and Human Security* posted their third red flag alert for anti-trans genocide in the USA.. The Administration has shifted from claiming trans people as a threat to the family to claiming that trans people are the greatest direct threat to U.S. national security in the world. The Lemkin institute has determined that the united states is in the early to middle stages of a genocidal process against trans people, the goal of which is to not only erase transgender people from public life but also from existence in the U.S. and globally.

SPEAK UP!! SILENCE IS DEATH

If you have the ability, GET LOUD!

Use your privilege to speak for those who can't Listen and elevate trans and POC voices

Never let fear silence you

The right will do their best to silence and divide our

community, using manipulation to further alienate

trans people when we need to stick together.

We are strong TOGETHER!
